

SPACE wins the trophy for "kings of the Supply Chain" in Paris

Paris Bercy 17 January 2012. SPACE won the trophy at the 6th "Rois de la Supply Chain" competition ("Kings of Supply Chain"), organized by Supply Chain Magazine and recognized by an audience of 800 people. The projects competing came from various spheres of business within the French Supply Chain sector.

For SPACE, it is the demonstration that the mobilization and pooling of resources serving the community is the right approach and is a true force in promoting industrial excellence.

René Colin, Philippe Payrard, Jean Desproges-Gotteron, Guillaume Krempp, Solange Hollard, Christophe Cabaret, Maurice Perrault

Much more than just winning this award, it is for us a real recognition of the values that we hold: quality, respect, independence, and of a collaborative approach. Together, let's continue in this way in order to maintain the growth of the French and European aerospace sector.

A demanding contest which rewards innovation and efficiency in Supply Chain field

organized by Supply Chain magazine
